DATE: June 3, 2004
TO: Mayor & City Council
FROM: Bashar Abugalyon, P.E., Interim Assistant City Engineer
SUBJECT: Conditional "B" Building Permits
Maria Seanes Unit Three Subdivision (District 6)

The above referenced request is scheduled for City Council Regular Agenda on June 8, 2004. The purpose of this memorandum is to provide you with general information concerning this request.

Under the City Building and Administrative Code, Section 18.02.103.1.1.6, developer may obtain building permits for up to 25% of the lots before all of the required subdivision improvements have been completed and accepted by the City. These are commonly called, "unconditional permits". "Conditional A" permits are permitted for the next 25% (up to 50% of the total) of lots. To obtain "Conditional A" permits, the developer must provide water and sewer service, curbing (but not street paving), drainage facilities, etc., necessary for the site in question. The developer must additionally provide a signed acknowledgment by the permit applicant that the certificate of occupancy for that lot will not be signed acknowledgment by the permit applicant that the certificate of occupancy for that lot will not be issued until all of the improvements affecting that lot have been completed and approved by the City.

Lastly, "Conditional B" permits may be issued if the developer complies with all of the "Conditional A" requirements and obtains permission from the City Council. In order for the City Council to grant such permission, the Council must make a finding, "...that additional permits should be issued based upon economic hardship or public benefit demonstrated by the subdivider".

At this hearing, then, the City Council should hear testimony or other evidence from the developer that justifies allowing more permits to be issued before all of the needed improvements have been accomplished, before deciding the issue.

If I can be of any further assistance regarding this matter, please don't hesitate to contact me at extension 4157.

2. Issuance of Building Permits.

Developer and Applicant acknowledge that building permits for a lot within the subdivision may be issued for single-family detached dwellings (if otherwise permitted by applicable zoning and restrictions) although the required subdivision improvements have not been completed, provided that (i) water and sewer service, (ii) curbing conforming with the appropriate street design cross-section, (iii) any drainage facility and (iv) any other remaining public improvement required by the City Engineer in order to adequately provide for construction on the lot (collectively referred to herein as the "Minimum Improvements"), have been constructed and installed within the right-of-way servicing each such lot, and subject to the following additional conditions:

Declarant and applicant also acknowledge that a Certificate of Occupancy will not be issued for any lot unless the dwelling unit constructed thereon meets the Building and Zoning Codes of the City of El Paso and, with respect to Conditional "A" Building Permits, the Subdivision has been approved for acceptance by the City Engineer, and with respect to Conditional "B" Building Permits, the Subdivision has been accepted for maintenance by the City of El Paso.

5. Release.

Upon satisfactory completion and acceptance of the required public improvements in the Subdivision by the City of El Paso, this Agreement shall terminate. The city Engineer is authorized by the Code to execute a formal release, which may be filed of record by the Developer or the Applicant.
